Dear Lederberg,

Thank you for your kind invitation of March 23 to go to Madison. I would be highly interested in visiting the University of Wisconsin and in meeting you. I plan to leave Paris around June 1st, by plane, to go to Oberlin on June 13th, and, in the meantime, to spend a few days in New York and in Cold Spring Harbor. I could find a couple of days before the 13th to go to Madison, but this would raise the dollar problem. The N.R.C. pays my round trip ticket to Cleveland and my expenses during the meeting. For the rest of the time, I'll be on my own, which means very few dollars. If your department can contribute to the equivalent of a round air trip ticket from Cleveland to Madison, that would be nice. As a justification of this expense, I could give a seminar on my ~~attempts~~ attempts of inducing mutations in a virus

(If you deem it as interesting).

The best time would be June 10 ~~or~~ \pm one day.

I am sorry to ask you this, but you know how life goes for a scientist with three children

Please, answer me before I leave. Other wise, I'll call you by phone from C.S.H. If I go to Madison, I would be glad to meet the cancer people.

Hoping to see you soon

Sincerely

Raymond Latarjet
